Presentació

Una bona exposició (com una bona pel·lícula, obra de teatre, concert...) és aquella que, d'una manera o altra, et trasbalsa i commou. Si et desperta l'interès per saber-ne més, per aprofundir en determinats aspectes, si sents que és una llàstima que s'hagi acabat, estariem d'acord a concloure que ha estat reeixida.

El Centre de Documentació del Museu de Ciències Naturals de Barcelona, que té una col·lecció notable de documents sobre primats, ofereix, coincidint amb l'exposició temporal "Micos", una mostra de llibres, contes i audiovisuals per a tothom que vulgui eixamplar el coneixement sobre els temes que tracta.

Habitualment, les dates de publicació són un dels criteris que seguim a l'hora de seleccionar els documents que citem en les guies de lectura. En aquesta ocasió, en trobareu d'editats en les dècades dels vuitanta i noranta que no ens n'hem pogut estar d'incloure atesa la qualitat i rellevància dels continguts; alguns dels quals, precisament, ja no es troben a la venda.

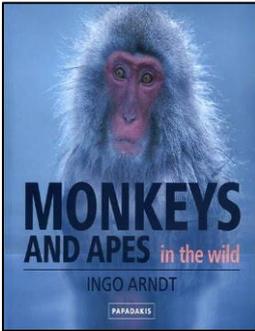

A l'hora d'agrupar-los, hem volgut cenyir-nos als mateixos blocs de l'exposició, segurament advertireu que alguns hi tenen l'encaix una mica forçat.

Tots aquests documents els podeu consultar a les seus de la Biblioteca i la Mediateca i us els podeu endur a casa en préstec.
